

Mercury crosses 41° Celsius in Gujarat; IMD issues heatwave warning

Temperatures soared above the 41° Celsius mark in certain regions of Gujarat, prompting the India Meteorological Department (IMD) to issue warnings of impending heatwave conditions over these areas for the next two days.

Several districts witnessed temperatures above 41° Celsius. The mercury reached 42.8° Celsius in the Ahmedabad airport region, while Ahmedabad as a district saw 41.1° Celsius. Amreli, Gandhinagar, Rajkot, and Surendranagar all experienced temperatures above 41° Celsius.
