

4-lane split flyover ready in Ahmedabad; Opening for public after load tests

Ghodasar fly-over bridge which connects Isanpur to Cadila will soon open for the public. Amdavad Municipal Corporation (AMC) today in a note informed that it has completed the construction of this bridge and started load testing. A 707-meter-long four-lane flyover is located on BRTS road. It has 7.5 meters + 7.5 meters clear carriage width. Presently 100 percent load is placed on span for 24 hours. Later retesting will take place for another 24 hours. After load testing, the bridge will be opened to the public.
