## **Ahmedabad Airport Set to Get Advanced SkyCast Weather Monitoring System**

In a significant boost to aviation safety and weather monitoring, the city's Sardar Vallabhbhai Patel International (SVPI) Airport is set to receive the advanced SkyCast atmospheric sensing system under the Centre's Mission Mausam initiative. The announcement follows the launch of India's first SkyCast system at Delhi's Indira Gandhi International Airport (IGI), a technological upgrade aimed at enhancing flight safety during adverse weather conditions.
