Gujarat Vehicle Retail Market Grows 18.16% in May; Two-Wheeler Sales Lead

The automobile retail market in Gujarat continued to see growth in May 2026, with total vehicle sales crossing 1.58 lakh units, marking an 18.16% increase compared to the same month last year, the Federation of Automobile Dealers Associations (FADA) said.

Two-wheelers remained the largest contributor to vehicle sales in the state. Retail sales in the segment rose 16.04% year-on-year to over 1.09 lakh units, up from 93,992 units sold in May 2025.

The three-wheeler segment recorded the highest growth rate among major categories, with sales rising 27.11% to 7,515 units. The increase was largely driven by demand for last-mile transportation and small-scale cargo movement.

Passenger vehicle sales also posted impressive gains. Retail sales of cars increased 25.81% year-on-year from 25,450 to 32,018 units, supported by strong consumer demand and the popularity of newly launched models, particularly in the SUV and compact car segments.
