

Ahmedabad City Logistics Plan Released; Rs 12,315 Crore Project to Ease Traffic, Boost Freight Movement

The book Ahmedabad City Logistics Plan (CLP), prepared for the future logistics development of Ahmedabad city, was released by Union Cabinet Minister Manohar Lal Khattar during the 'Vibrant Gujarat Regional Conference-Central Gujarat' that began today in Vadodara.

As per a press release, the main objective of the Ahmedabad City Logistics Plan is to make the transportation of goods in the city more efficient, well-organized, environmentally friendly, and future-oriented. This plan has been prepared in line with the National Logistics Policy of the Government of India and the PM Gati Shakti National Master Plan. The plan covers the Ahmedabad Municipal Corporation (AMC) area, Ahmedabad Urban Development Authority (AUDA) area, and the surrounding region by preparing a detailed roadmap keeping future urban development in mind.

Ahmedabad, a leading industrial and commercial hub of Gujarat, is facing increasing freight traffic, resulting in traffic congestion, a shortage of logistics parking, inadequate godown and warehouse facilities, last-mile connectivity issues, and environmental challenges. As per the base year 2024-25, approximately 289.5 million tonnes of freight is transported in Ahmedabad city, of which approximately 92% is transported by road.
