

## **AMC clears key land-use changes for Sardar Patel Sports Enclave in Ahmedabad**

The proposed Sardar Patel Sports Enclave in Ahmedabad has taken a significant step forward after the Ahmedabad Municipal Corporation (AMC) approved changes in the land use of several reserved plots in the Sabarmati and Koteswar Town Planning (TP) schemes, paving the way for the mega project.

As per a TOI report, the AMC administrator approved a proposal during the Standing Committee meeting on March 20 to change the land use of four plots in Sabarmati TP Scheme No. 23. These plots, which were earlier reserved for gardens, urban forests, and other public purposes, have now been redesignated as “social infrastructure,” making them available for construction.

An AMC official said the fourth variation of Sabarmati TP Scheme No. 23 approved the change in land use of four plots covering a combined area of 56,845 square metres.
