AMC plans three-lane roads on both sides of Kharicut Canal

The Amdavad Municipal Corporation (AMC) on Tuesday reviewed the progress of the Kharicut Canal development project and approved key changes, including widening the proposed roads on both sides of the canal into three-lane carriageways to improve connectivity and ease traffic in eastern Ahmedabad.

Mayor Hitesh Barot, Standing Committee Chairman Kamlesh Patel, Ruling Party Leader Jashu Thakor and senior AMC officials inspected the 12.7-km corridor from Naroda to Vinzol.

The project aims to transform the canal corridor into a modern urban roadway with improved transport infrastructure and green spaces. The original plan included 9.5-metre-wide roads on both sides of the canal, along with green belts, service roads and footpaths, depending on the available right of way.
