Over 1.53 Lakh Passengers Use Gandhinagar PM E-Bus Service in Just 14 Days

The newly started AC e-bus service in Gandhinagar has received a good response from passengers. A total of 1,53,509 passengers availed of the service over 14 days. That is, an average of 10,965 passengers traveled on these buses every day, a press release said.

The press release stated that the new air-conditioned electric bus service launched by the Gandhinagar Municipal Corporation has proven to be a boon for citizens.

For people who travel every day, this service has become an efficient means of making their daily lives easier, safer, and stress-free. This initiative by the Municipal Corporation is a step towards building a green, clean, and smart Gandhinagar.

When the service was initially launched, it received a good response. On the first day, June 29, 2026, a total of 6,120 passengers were registered. As citizens experienced the convenience and comfort of the bus service, ridership continued to increase. On July 11, 2026, a record 13,615 passengers traveled on the buses in a single day.
