

Ahmedabad Woman Duped of ₹11 Lakh in Fake Science City Road Flat Deal

A 57-year-old woman from Sola has alleged that she was duped of ₹11 lakh after being lured into buying a flat in a proposed housing project on Science City Road.

According to a complaint lodged with the Sola police on Saturday, the woman was first approached by a female acquaintance, who informed her about affordable flats being offered near a party plot on Science City Road.

The next day, the acquaintance visited her home with a man from Bopal, who introduced himself as a builder. He allegedly showed her a brochure of the proposed housing project and later took her to the Science City Road site, where she was shown a flat in an under-construction building.

Believing the offer, the woman agreed to buy the flat for ₹25 lakh and initially paid ₹1 lakh in cash. She later broke a fixed deposit and made additional cash payments, taking the total amount paid to ₹11 lakh. According to the complaint, the payments were made at her home in March 2024 in the presence of family members and others.
