

Chandlodiya Railway Bridge Work to Begin; Traffic Diversions Announced

Western Railway's Ahmedabad division is set to undertake construction of a new railway bridge in the Chandlodiya area along the Sabarmati-Sarkhej railway route. The contract for the work has been awarded to Khodal Corporation.

The new bridge is being constructed alongside Railway Bridge No. 5 as part of the work to lay a second railway line on the Sabarmati-Sarkhej route. During the construction, the road passing under the existing Railway Bridge No. 5 will remain closed to vehicular traffic.

According to the traffic diversion plan, the 100-metre stretch under Railway Bridge No. 5 in Chandlodiya will be closed to all types of vehicles for around four months. The construction work will be carried out round the clock during this period.
